

Öra Mural

Printed acoustic wall coverings

Öra Mural printed felt acoustic wall coverings offer an innovative solution to managing noise, reducing reverberation AND add a little creativity to your office, learning and hospitality environments. They are ideal for bringing the outside in, connecting the built environment to nature and creating large-scale statement walls. These are no ordinary images – shot using the latest photographic equipment, they are works of art intended to be seen at a large scale. Our Abstract Murals come in a range of colours that reference nature, allowing you to introduce visual cues from nature into the most modern, urban spaces.

Features

- ▶ Available in 12mm and 24mm thickness
- ▶ 2400mm x 1200mm per panel
- ▶ Made from 60% recycled PET
- ▶ Noise Reducing Co-efficient (NRC) 0.45
- ▶ Different mounting options available to increase NRC rating
- ▶ Stunning range of super-high resolution landscape and cityscape images to choose from
- ▶ Available to print as full width image or as panels to fit available space
- ▶ Innovative solution for introducing biophilic design elements to built environments
- ▶ Ideal for use in spaces where natural light and views are limited
- ▶ Manufacturer's 5 year guarantee
- ▶ Specialist high definition printing process delivers vivid colours without compromising either acoustic performance or image quality
- ▶ Not affected by moisture, mould or mildew
- ▶ No formaldehyde binders
- ▶ Low VOCs
- ▶ Easy to install with contact adhesive
- ▶ Fire Rating EN 13501-1:2007+a1:2009 - B, s1, d0 ASTM E84 -16 - Class A
- ▶ BIM/Revit files available to download from www.allsfar.com
- ▶ REACH: Pass

Kinetic Purple

Up to 6 panels wide. Full height 2.4m. Full width 7.2m.

Kinetic Yellow

Up to 6 panels wide. Full height 2.4m. Full width 7.2m.

Kinetic Grey

Up to 6 panels wide. Full height 2.4m. Full width 7.2m.

When not specifying the maximum number of panels or full width, we will select the centre of the image and work our way out on either side to fit your dimensions. For ceilings over 2.4m high, please contact us.

Kinetic Blue

Up to 6 panels wide. Full height 2.4m. Full width 7.2m.

WAD25	25mm acoustic wadding	2400 x 1200

INSTALLATION & CARE INSTRUCTIONS FOR ÖRA WALL COVERINGS

Tools required:

- Contact Adhesive
- Sharp Stanley knife
- Straight edge
- Spirit Level

Method:

- 1 Ensure all surfaces are clean and free from dust.
- 2 Plan your installation:
 - a Particularly for Öra Mural, ensure you have the panels in the correct order.
 - b Identify the best place to start, whether that be off a wall or in the centre.
 - c Using a spirit level – ensure the starting wall is plum or draw a plumb line to ensure accurate installation.
 - d Identify any sockets or light switches which will need to be cut around.
- 3 Accurately cut your first panel if cutting is required and offer up to ensure accuracy.
- 4 Spray the wall and the back of the felt with contact adhesive holding it approximately 10cm away. Wait 1-2 minutes for the adhesive to dry.
- 5 Carefully position the felt and press to the wall with the palms of your hand.
- 6 Repeat with the next panels.

NOTES

- Other adhesives can be used including AC50, hot melt glue and silicon or polymer-based adhesives; test a small area first.
- Thin pins can be used to temporarily hold panels back while the adhesive sets. This will not be required if using contact adhesive.
- By cutting a V shape in the back of the felt panel they can be bent around external corners.

CLEANING

- For dust use a vacuum cleaner with a soft brush attachment.
- For light soiling use clean warm water and a sponge to wipe away dirt.
- For medium soiling use an upholstery cleaner on the soiled area then wipe clean using warm water and a sponge.
- For heavy soiling use an upholstery wet and dry vacuum cleaner with upholstery cleaning solution to spray and vacuum the affected area.

NB For all options it is important to test an inconspicuous area first.

GUARANTEES

AllSfär guarantee its products against material or manufacturing faults. At AllSfär's sole discretion, AllSfär will repair or replace with comparable materials any product or component which fails under normal use in a single shift environment as a result of a defect in the materials or workmanship. A five-year manufacturer's guarantee applies to ÖRA wall coverings and DIFFUSE acoustic furniture. AllSfär also offer a two-year guarantee on all moving parts. The full Warranty Policy is available on request from AllSfär Customer Services.

SPECIFICATIONS

Whilst every care is taken to ensure accuracy, all dimensions are approximate and, as a consequence, AllSfär cannot be held responsible for errors. As part of our policy for continued improvement AllSfär reserve the right to make any changes, without notice, to specifications or designs that it considers reasonable. Any such changes will not affect the validity of the contract.
